Submission for OMB Review; Comment Request

AGENCY: Department of the Air Force, Department of Defense (DoD).

ACTION: Emergency 15-day information collection notice.

SUMMARY: Consistent with the Paperwork Reduction Act of 1995 and its implementing regulations, this document provides notice that DoD is submitting an Information Collection Request to the Office of Management and Budget (OMB) to develop a leadership curriculum that will help the U.S. Air Force (USAF) Academy produce leaders of character who will contribute to a culture of civility as they become officers in the USAF. DoD requests emergency processing and OMB authorization to collect the information after publication of this notice for a period of six months.

DATES: Comments must be received by April 4, 2022.

ADDRESSES: The Department has requested emergency processing from OMB for this information collection request by 15 days after publication of this notice. Interested parties can access the supporting materials and collection instrument as well as submit comments and recommendations to OMB at www.reginfo.gov/public/do/PRAMain. SUPPLEMENTARY INFORMATION: This study supports the Sexual Assault Prevention and Response Office's (SAPRO) mission (and that of the larger USAF) to work toward an Air Force culture that is free of sexual violence. This effort will also support completion of USAF Academy SAPRO's DoD Junior Leader Working Group's plan of action and milestones. Ultimately, the implementation of the adapted curriculum may result in a reduced number of sexual assaults and enhanced psychological health and well-being among Airmen, enabling them to remain fit for duty.

This study will collect formative research data through focus groups and interviews to inform recommendations to enhance the current USAF Academy sexual assault leadership training curriculum. Research partners at the University of Florida and RTI International will collect feedback from trainees in Squadron Officer School at Maxwell Air Force Base concerning perceived readiness for duty, perceptions of the leadership training received at USAF Academy, and opportunities for enhancement across the four-year USAF Academy curriculum.

BILLING CODE 5001-05-P

DEPARTMENT OF DEFENSE**Department of the Navy****Notice of Availability for the Supplement to the Gulf of Alaska Navy Training Activities Draft Supplemental Environmental Impact Statement/ Overseas Environmental Impact Statement**

AGENCY: Department of the Navy (DoN), Department of Defense (DoD).

ACTION: Notice.

SUMMARY: The Department of the Navy (DoN) has prepared and filed with the U.S. Environmental Protection Agency (EPA) a supplement to the December 2020 Gulf of Alaska (GOA) Navy Training Activities Draft Supplemental Environmental Impact Statement (EIS)/ Overseas Environmental Impact Statement (OEIS). This supplement to the Draft Supplemental EIS/OEIS will address a change in the Study Area and the addition of a new Continental Shelf and Slope Mitigation Area.

DATES: The supplement to the Draft Supplemental EIS public review period will begin March 18, 2022, and end on May 2, 2022. Comments may be submitted by U.S. mail or electronically via the project website as detailed below.

ADDRESSES: Naval Facilities Engineering Command, Northwest, Attention: GOA Supplemental EIS/OEIS Project Manager, 1101 Tautog Circle, Suite 203, Silverdale, Washington 98315-1101, projectmanager@goaeis.com.

Written comments can be submitted via the electronic comment form at <http://www.GOAEIS.com> or by mailing them to: Naval Facilities Engineering Systems Command Northwest, Attention: GOA Supplemental EIS/OEIS Project Manager, 1101 Tautog Circle, Suite 203, Silverdale, WA 98315-1101. All comments must be received or postmarked by May 2, 2022, to ensure they become part of the official record.

SUPPLEMENTARY INFORMATION: With the filing of the supplement to the Draft

Supplemental EIS/OEIS, the DoN is initiating a 45-day public comment period. Federal, state, and local agencies and interested parties are encouraged to provide written comments on the supplement to the Draft Supplemental EIS anytime during the public comment period. This notice announces the opportunity to review and comment on the Draft Supplemental EIS, and provides supplementary information about the environmental planning effort.

All comments submitted during the public review period will become part of the public record and will be responded to in the Final Supplemental EIS/OEIS. All public comments received during the Draft Supplemental EIS/OEIS comment period (December 11, 2020, through February 16, 2021) are still valid and will be considered in the Final Supplemental EIS/OEIS for this action. Previously submitted comments need not be resubmitted.

Pursuant to section 102(2)(c) of the NEPA, regulations implemented by the Council on Environmental Quality (40 CFR parts 1500–1508), and Presidential Executive Order 12114, the DoN announced its intent to prepare a supplement to the 2011 GOA Navy Training Activities EIS/OEIS and 2016 GOA Navy Training Activities Supplemental EIS/OEIS in the **Federal Register** (FR) on February 10, 2020 (85 FR 7538), and invited the public to comment on the scope of the Supplemental EIS/OEIS. A Draft Supplemental EIS/OEIS was subsequently released on December 11, 2020 (85 FR 80093), in which the potential environmental effects associated with military readiness training activities conducted within the GOA Study Area were evaluated.

Since the release of the Draft Supplemental EIS/OEIS on December 11, 2020, the DoN recognized that the size and shape of the Temporary Maritime Activities Area (TMAA) in the Gulf of Alaska no longer provides sufficient space for the realistic maneuvering of vessels and aircraft during training exercises. The DoN announced its intent to prepare a supplement to the December 2020 GOA Navy Training Activities Draft Supplemental EIS/OEIS on February 1, 2022 (87 FR 5472). Proposed changes to the Study Area include additional airspace and sea space to the west and south of the TMAA. The area is referred to as the Western Maneuver Area and adds approximately 185,806 square nautical miles to the Study Area. This additional space would enable Navy personnel and units to practice more realistic, complex training scenarios in a safer, more efficient manner that

would better prepare them to respond to real-world incidents. The TMAA (approximately 42,146 square nautical miles) would remain unchanged and any activities involving active sonar or explosives would, as in the past, occur in this area only. The DoN is not proposing new or increased number of training activities in the Western Maneuver Area, only an expansion of the area the Navy may use for vessel and aircraft maneuvering purposes during exercises. The number of vessels, aircraft, underway steaming hours, events, and flight times remains the same. Although the Study Area has expanded, the conclusions regarding potential impacts have not significantly changed from the 2020 Draft Supplemental EIS/OEIS.

In direct response to agency, tribal, and public comments, the DoN also proposes implementing a new mitigation area within the continental shelf and slope area of the TMAA (approximately 14,600 square nautical miles). The DoN would expand its mitigation measures for explosives detonated at or near the surface and prohibit the use of explosives during training (up to 10,000 feet altitude) in areas of less than 4,000 meter depth to protect marine species and biologically important habitat. The DoN anticipates the implementation of the proposed mitigation area would reduce impacts on marine mammals, fish, and marine birds.
